

Name: \_\_\_\_\_ / 5

This quiz is designed to help make sure you are familiar with some important details about your Calculus I course this semester, and to help you practice some of the technology. There are also some questions to help your instructor get to know you.

You can find answers to many of these questions in the Syllabus, on the Calculus I website, and in our course Blackboard site.

**To receive full credit<sup>1</sup>, you must upload your completed Quiz 0 into Gradescope by Friday August 28 by 4pm.** You probably want to try to upload it much sooner than that so you can sort out any technology issues.

1. What day is your first WebAssign homework due?
2. (Synchronous class) What day is DH4 due? (Asynchronous class) What day is your first Written Homework due?
3. What day is the Prerequisite Quiz (Quiz 1)? Where can you find sample quizzes?
4. What day is Midterm 1?
5. True or False? You can complete your WebAssign assignments after the due date. (Circle the correct answer.)
6. True or False? You can turn in your homework late. (Circle the correct answer.)
7. True or False? You can be withdrawn from the course for missing class and not doing your homework. (Circle the correct answer.)
8. True or False? You can access WebAssign and an electronic copy of the textbook for two weeks without paying. (Circle the correct answer.)
9. Write your instructor's name:
10. Write your recitation leader's name:

---

<sup>1</sup>Quiz 0 counts in the "Notes/Worksheets" category in the syllabus, but it's **called** Quiz 0 because it's practice for the other quizzes you will be taking.

11. How much time per week should you plan to spend studying for this class outside lecture and recitation?
  
  
  
  
  
  
  
  
  
  
12. What are some ways you can access tutoring?
  
  
  
  
  
  
  
  
  
  
13. What is your major? Write down a best guess even if you are not sure!
  
  
  
  
  
  
  
  
  
  
14. How certain are you of your answer to the question 13 above?
  
  
  
  
  
  
  
  
  
  
15. Have you taken a calculus class before? If so, where and when? (e.g., did you take Calculus in high school?)
  
  
  
  
  
  
  
  
  
  
16. Tell your instructor one interesting, funny, unexpected or kooky thing about yourself.
  
  
  
  
  
  
  
  
  
  
17. (optional) Do you have anything you want to tell us (concerns, things you're excited about) for this semester?
